PUSH-PULL HANDLE[™]

Save Multiple Trips with the Lakeside Push-Pull Utility Cart

The flexibility of Pushing or Pulling with the ability to tow multiple utility carts.

Seeking a cart that makes your job easier and more efficient?

The Lakeside Push-Pull Utility Cart personifies just that. Due to its optional on-board stowable drawbar system, you can tow multiple carts at once, drastically reducing labor and the number of trips you need to make.

This revolutionary cart allows you to lead from the front, giving you full visibility of the path ahead for safer navigation, even in crowded spaces. The Push-Pull Handle lets you take full strides while pulling, reducing ankle contact and ensuring a smoother, more comfortable experience. Experience ultimate flexibility and efficiency with the Push-Pull Utility Cart.

How Lakeside's Push-Pull Works for Various Segments

K-12

Deliver More Meals in Fewer Trips. Transform your school's meal delivery system with the Push-Pull Utility Cart, designed to serve one full classroom of meals per trip. Ideal for schools with over 500 students, this cart is streamlining meal times by increasing breakfast participation and boosting lunch numbers. What if you could boost lunch participation by up to 58% and breakfast participation by an astounding 169%? Picture the impact on your program's success. With the added bonus of reducing trips by more than threefold, you'll save precious time while maximizing efficiency in your meal distribution process. Great for grab n' go too! Let this cart be your reliable partner in keeping students nourished and ready to learn, all while making your day a little easier.

College & University

Stock and Smoothly Maneuver in Dining Halls. Keeping dining halls in top shape day after day can be exhausting for your staff, but the Push-Pull Utility Cart makes it less stressful. Intended to handle the demands of campus distribution, this multifunctional cart allows your team to transport items like prepared meals, beverages, and dining utensils all at once. With the capacity to carry up to three times more in three times fewer trips, it significantly cuts down the time needed to restock food stations or prepackaged meals. Reap smooth mobility with its non-marking cushion-tread casters that glide across various floors while safeguarding your institution's surfaces, even under heavy-duty loads up to 700-lb.

Healthcare

Quick Loading and Unloading on Docks. Healthcare facilities rely on quick and efficient logistics. The Push-Pull Utility Cart excels in managing tasks like food delivery and hauling sealed medical supplies from loading docks. With its durable build and user-friendly design, this cart is an indispensable tool for achieving operational superiority, allowing your staff to accomplish tasks up to three times faster with minimal effort.

Hospitality

Enhanced Labor Efficiency for Hospitality Excellence. In the fast-paced world of hospitality, every second counts. The Push-Pull Utility Cart is your answer for streamlined operations, designed to roll evenly in straight lines and around tight corners with ease. Whether your staff is delivering meals or restocking supplies, this cart makes it all feel seamless. Once tasks are complete, simply return the attached carts to their spots, conserving your staff's energy and time for what truly matters—delighting your guests. Experience the joy of efficiency and let your operations run as smoothly as your service.
